PROFILE

Detail-oriented Manual QA Tester with comprehensive experience in ensuring software quality across diverse domains including e-commerce, healthcare, transportation, and legal sectors. Proficient in various testing methodologies and dedicated to delivering flawless user experiences through meticulous testing and bug reporting. Incorporates AI tools into day-to-day testing workflows to improve efficiency and coverage. Currently contributing to quality assurance initiatives at WebContrive Technologies Pvt. Ltd. while continuously expanding technical skills and domain knowledge.

CORE SKILLS

SDLC, STLC · Manual Testing, Functional Testing · Smoke and Sanity Testing · Regression Testing · Integration Testing · System Testing · User Acceptance Testing (UAT) · Black Box and White Box Testing · Exploratory Testing, Ad-hoc Testing · Cross-browser, Cross-platform Testing · Mobile and Web App Testing · API Testing (Postman) · Test Case Design · Bug Reporting · Defect Tracking · Agile Methodology · Asana, Trello · Python (Basics) · Shopify App Testing · AI-assisted Testing

AI-ASSISTED QA

Tools: Claude, ChatGPT, Z.ai, Antigravity, Codex

- **AI-Assisted Test Case Generation**: test scenarios, functional cases, edge cases, negative cases, boundary-value scenarios from requirements and user stories
- **Prompt Engineering for QA**: structured prompts with context, requirements, constraints, expected behavior for accurate QA outputs
- **AI-Assisted Requirement Analysis**: identifying ambiguities, missing acceptance criteria, inconsistencies, functional gaps
- **AI-Assisted Bug Reporting**: improved bug titles, reproduction steps, expected vs actual, severity and impact clarity
- **AI-Based Test Data Generation**: positive, negative, boundary, invalid and scenario-based test data with data privacy
- **AI-Assisted Exploratory Testing**: user personas, alternative workflows, failure scenarios
- **AI-Assisted API Testing**: REST scenario design, payload generation, validations/assertions, response analysis
- **SQL & AI-Assisted Database Validation**: query creation and backend data validation
- **AI-Assisted Log & Error Analysis**: sanitized logs, stack traces, root-cause investigation
- **AI-Assisted Test Documentation**: test plans, checklists, regression suites, QA summaries, release documentation

WORK EXPERIENCE

WebContrive Technologies Pvt. Ltd. — Shopify Plus Partner
Jan 2026 – Present
Manual QA Tester
Surat, India

- Perform end-to-end manual testing of Shopify apps, Shopify Plus stores, and SaaS products across web and mobile-responsive environments
- Design and execute test cases, scenarios, regression suites, smoke/sanity checks, UI/UX and cross-browser testing
- Test Shopify merchant workflows: Admin, storefronts, checkout, orders, customer accounts, product data and app integrations
- Validate custom Shopify functionality, third-party integrations, data synchronization and business-critical e-commerce workflows
- Perform API testing using Postman; validate request/response data and integration behavior
- Identify, document, prioritize and retest defects with developers and product teams; participate in Agile/Scrum ceremonies and release validation
- End-to-end testing of Shopify apps: Rivyo, Wishlist, Addup, Editly and SaaS platform QuickHunt
- Contribute to release quality via regression testing and validating fixes before production deployment

Netizens Technologies
May 2024 – Dec 2025
Manual QA Tester
Surat, India

- Designed and executed comprehensive test cases for web and mobile applications
- Performed functional, regression and compatibility testing across multiple platforms
- Identified, documented and tracked defects using Asana; collaborated with developers for timely resolution
- Conducted user acceptance testing and provided detailed feedback

Projects: E-commerce websites (product browsing, cart, payments, accounts) · Fleeto transport app (booking, tracking, driver-passenger flows) · Broadway Dental website (appointments, services, patient portal)

NOTABLE PROJECTS

- **Rivyo** — Shopify product reviews & ratings app (widgets, photo/video reviews, merchant configuration)
- **Editly** — Shopify order editing app (address/products/quantities/discounts, totals recalculation)
- **Wishlist Club** — Shopify wishlist app (creation, management, storefront integration)
- **Addup** — Shopify checkout customization app (checkout UI, custom blocks, regression & compatibility)
- **QuickHunt** — SaaS + mobile (user management, feedback, feature voting, roadmaps; tested MCP integration with Claude and ChatGPT)
- **Fleeto** — transportation management app (bookings, tracking, driver-passenger interactions)

EDUCATION

Bachelor of Engineering in Electrical Engineering — North Maharashtra University | 2020 – 2023

Diploma in Electrical Engineering — Maharashtra State Board of Technical Education (MSBTE) | 2016 – 2020
